PEARL Inyo County CALIFORNIA

J. A. Lyon, 1949

Located about 24 mi. S. of Furnace Creek Ranch and 12 mi.
N. of Wingate Pass.

To reach from Bennetts Well, drive 2.6 mi. S. Station is
150 ft. W. of center line of rd. and opposite CAGS B.M.
"B 681 1943".

Station mark: Standard tablet stamped "PEARL 1949" set
in concrete post projecting about 4-in. above ground.

Reference mark No. 1: CAGS B.M. "B 681 1943", 231.6 ft.
from station mark in azimuth $348^{\circ}57'37''$.

Elevation -248. ft.(By Plane

HORIZONTAL CONTROL DATA

by
Coast and Geodetic Survey
NORTH AMERICAN 1927 DATUM

DESCRIPTION OF TRIANGULATION STATION

DEPARTMENT OF COMMERCE
U. S. COAST AND GEODETIC SURVEY
BUREAU OF THE NAVIGATION

NAME OF STATION: DAYTON HARRIS GRAVITY STATION / Sta.

CHIEF OF PARTNERS: R. J. Sipe /

NOTE: HEIGHT OF TELESCOPE ABOVE STATION MARK 1.54 / METERS

Underground station mark: Surface station mark, reference marks and prominent objects which can be seen from the ground at this station

OBJECT	BLANDING	HOR. DISTANCE feet	DISTANCE feet	DIRECTION:
SOUTH Mtn (USGS) /	SSW	52	00	00.0
Az.Mk. Approx. 0.25 mile /	SW	32	31.9	
Dayton-Harris Grave Monument	SW	157	28	21.1

The station is located in Death Valley Junction, about 18 miles south of Furnace Creek, about 200 feet east of the road between Furnace Creek and Bennett's Well and 19 feet east of a white witness post. The station was reinforced with additional concrete because the original concrete appeared to be deteriorating. It was not moved horizontally or vertically. The station mark is a U.S. Coast and Geodetic Survey standard bronze station disk set in a 12x12 inch concrete post, projecting 5 inches. It is stamped "DAYTON HARRIS 1950".

There were no reference marks established at this station.

The Dayton-Harris Grave Monument is a rectangular cairn with a 5x5 foot base. It is about a foot high. On the west side of the cairn there is a bronze plaque dedicated to the two pioneers buried at its base. The point intersected on the cairn was the center of a lxi that is apparently the top and center of the cairn.

The azimuth mark is located on the top of a small rise of ground which is about 5 feet higher than the surrounding country. The mark is 31 paces west of the center of a graded road and 6 feet southeast of a white witness post. It projects 3 inches and is stamped "DAYTON HARRIS 1950".

To reach the station from the road, junction 0.1 mile west of the entrance to the Furnace Creek Inn, go south on a paved road for 5.8 miles to a fork and sign "Devils Golf Course, Bennett's Well"; turn right and follow the main graded road for 12.2 miles to the station on the left (east). A drive station.

To reach the azimuth mark from the station, go south on the graded road for 0.25 miles to the azimuth on the right (west) as described above.
