

**Review of County Wide LIDAR Data**

**Quality Control Summary**

**Martin County, FL**

**July 29, 2016**

**Frank Veldhuis, PSM**

**Michael O'Brien, PSM**

**Tom Walker, PSM**

- Breakline location on the West side of the Veterans Memorial Bridge. The lidar points along the road Star Island Way are classified as water
- Bird Island and Boy Scout Island are not classified as ground. They are also missing from the DEM.
- There is a large area in the Southeastern section of the county that has two layers of lidar points in the water.
- Many smaller islands and some larger lakes are not classified correctly.
- The DEM is affected by all of the above problems.

All of the problems listed above are detailed by location in the shape file named "Problem\_Areas\_20160729.shp"
