

## C-6.1 Report on Spatial Distribution and Regularity - continued

[Result Path - D:\00\\_Cherry\NE\\_CherryBrownCuster\\_South\\_Block\\_QC\C\\_6\SpatialDistribution\\_SingleFile.jp2](#)

Cell size: 1.420 Meter

■ Green: Cells containing at least one first return lidar point (number of cells = 1,010,593,940)

■ Red: Cells not containing at least one first return lidar point (number of cells = 362,573)

■ Background Color: Null data

Percentage of cells in the grid that contain at least one first return lidar point = 99.96% (Requirement is typically 90%)

See JPG2000 file for full resolution results
