QA Review Summary:

All of Iowa SC 01-13 one meter Lidar data was reviewed. This data was brought into Global Mapper as .xyz point files. Las point files were created from the .xyz files then gridded to 1 meter data for QA/QC. Errors found throughtout this project and fixed in Global Mapper are large amounts of bridges not taken out, bldgs not taken out, missing data in water (errors found on this project and fixed by the contractor is missing data, see examples below). This data was regridded to 1 meter .img files. This data is accepted and will be archived.

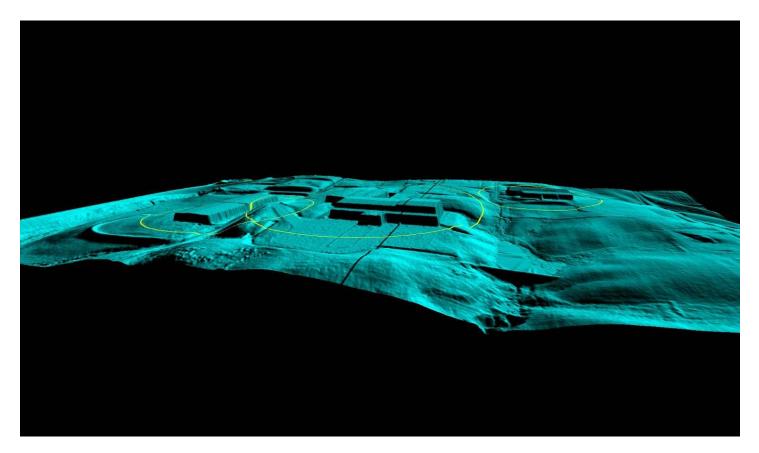

See error JEPG examples and documents attached below.

Conclusions: 1. 89% of artifacts removed 2. 90% of vegetation removed 3. 95% of buildings removed
